1ST SOUTH AUSTRALIAN WEEDS CONFERENCE

2 & 3 October 2008
Plant Research Centre
Waite Institute

Numbers limited - book early!

DRAFT PROGRAM

8.45am Thursday 2 October - Session 1

The spread and detection of weeds on Australian farms. Brian Sindel, University of New England

Has controlling WoNS benefited biodiversity? Louise Morin, CSIRO Entomology

Session 2

Outcomes for SA from the Weeds CRC. Chris Preston, University of Adelaide (UA)

Celebrity weeds make a difference. John Thorpe, National Weeds Facilitator

Implementing the Australian Weeds Strategy. Mark Ramsey, SA DWLBC

Progress in eradicating branched broomrape. Phil Warren, SA DWLBC

Driving community awareness of invasive plants. Andrew Clark, Biosecurity Queensland

Session 3

Early weed detection and response in SA. Tim Reynolds, SA DWLBC

What, why and who of WoNS work in SA. Shauna Potter, SA DWLBC

Prioritising regional environmental weed management actions. Melissa Herpich, SA DEH

What does the Council of Australasian Weed Societies do? John Virtue, CAWS

Session 4

Ecology and management of weeds of cropping systems. Gurjeet Gill, UA

Innovative weed management in no till. Greg Butler, SA No-Till Farmers Association

Silverleaf nightshade - new approaches to an old problem. Rex Stanton, Charles Sturt University

4.45 pm WMSSA AGM

7.00 pm Dinner - Edinburgh Hotel, Mitcham

8.45am Friday 3 October - Session 5

Climate change impacts on weeds, a national analysis with examples from South Australia. John Scott, CSIRO Entomology

Spatial priorities for weed risk management under climate change in the Mt Lofty Ranges. Neville Crossman, CSIRO Land & Water

Succulents as weeds in South Australia. David Cooke, SA DWLBC

Session 6

Managing trifluralin-resistant annual ryegrass. Peter Boutsalis, UA

The impact of a native parasitic plant on gorse and English broom. Jane Prider, UA

Application of site-specific management of ryegrass in southern Australian cropping. Sam Trengove, UA

Gene flow of herbicide resistance. Jenna Malone, UA

What makes bluebell creeper (Sollya) germinate? Anna Williams, SA DWLBC

Glyphosate resistance mechanisms in annual ryegrass. Fleur Dolman, UA

Session 7

Regional roundup, including:

Prioritising weed management in the Adelaide & Mt Lofty Ranges NRM. David Hughes, AMLR NRMB

Key weed control programs of the SA Murray-Darling Basin NRM. Peter Michelmore, SAMDB NRMB

Riding the weed management wave: building momentum for weed control in the south east. Justine Drew, SE NRMB

Get on it or get over it: Kangaroo Island weed management priorities. Rory Wiadrowski, KI NRMB

Building the capacity of the arid lands community to manage pest plant threats. Deb Agnew, SAAL NRMB

E.P. Plant Issues - Current & Future trends. Peter Sheridan, EP NRMB

Session 8

Future directions for weed management in SA

4.30 pm Close

1ST SA WEEDS CONFERENCE

On behalf of the Weed Management Society of South Australia (WMSSA Inc.) I would like to invite you to the 1st SA Weeds Conference, 2-3 October 2008. We have brought together a program that will cover national, state and regional activities for a diverse weed audience. Presentations will cover "big picture" strategy/policy, "detailed" research and "practical" on-ground management.

Whether your interests lie in agriculture, noxious weeds, biodiversity or biosecurity, you're sure to learn something new to help you manage weeds.

The Conference is a good opportunity to catch up with your SA weed colleagues and make new acquaintances - especially over dinner at the Edinburgh Hotel.

WMSSA is also having its AGM at the end of the first day. We're having some retirements from our current Executive. Please consider nominating to join the 2009 Executive and keep the WMSSA dynamic.

I look forward to seeing you in October.

Rachel Melland
President, WMSSA Inc.
rachel.melland@adelaide.edu.au

POSTERS

Posters are welcome to be displayed at the 1st SAWC, including those prepared for other recent conferences. If you plan to bring a poster please tick here:

Post this registration form section to:
